**RE: Final Site Wide RCRA Facility Investigation Report
U.S. Army Garrison, Fort Buchanan, Puerto Rico, dated September 2012**

Dear Mr. Negrón,

The U.S. Environmental Protection Agency (EPA) has reviewed the Final Site Wide RCRA Facility Investigation Report (Site Wide RFI Report), U.S. Army Garrison, Fort Buchanan dated September, 2012. After careful evaluation, EPA considers that our comments and concerns expressed in previous communications regarding the former (May 2012) Working Final RFI Report have been adequately addressed. Therefore, this final Site Wide RFI Report is approved by EPA.

Please submit within forty-five (45) days after receipt of this letter a Work Plan for the Corrective Measure Study (CMS) to address contaminated soil at the sites identified in this Site Wide RFI Report.

If you have any questions regarding this matter, please contact geologist David N. Cuevas, Ph.D. at (787) 977-5856 or through electronic mail at cuevas.david@epa.gov.

Sincerely yours,
